TRUST SERVICE

Creating a "Living Trust" By Instalments.

Those who have investigated the operations of a "Living Trust" realize its many benefits.

It insures one's old age against loss of fortune; it provides a dependent relative with a regular income during the life of the trustor; a fine thing for a man to do for wife, daughter, mother or sister. It may take the place of a Will, with some advantages over one.

But many are deterred from creating a Living Trust because they cannot set aside AT ONE TIME, sufficient funds or securities.

Under the "Bank of Italy Trust Plan" you can operate a Living Trust on the Instalment Plan. This is a novel plan, introduced by this Bank. It is becoming popular with men of sound judgment. We would like to tell you all about it.

Ask for our booklet, "The Bank of Italy Trust Plan" for creating and enlarging an estate.

Consequently for several years the people have been unable to plant crops and raise stock. The United States government, however, has decided to permit the planting of crops and the raising of stock in the northern provinces.

RAILS NOW ON OWN RESOURCES

No Further Aid From Government Unless Through Loans

WASHINGTON, Aug. 31.—The Associated Press.—Railroads of the country will begin operation on their own resources tonight, after having paid the government approximately \$100,000,000 monthly for the six months in which their earnings were guaranteed by the transportation act. The carriers will be allowed further aid from the government only through loans from revolving funds.

Earnings of the roads will fall about \$200,000,000 below their normal return for the period since March 1, according to estimates today by the bureau of railway economics. Fewer than half a score of lines have produced revenue sufficient to equal actual operating expenses, which does not include the fixed charges of interest, taxes and dividends.

Most all of the roads have indicated already that they will have money coming to them as a result of the guarantee. The treasury has received about \$100,000,000 in the last ten days and more are expected tomorrow, Secretary Hoadley said.

If the roads do not ask for an advance against probable deficits before tomorrow night, they must wait for a final completion of the sums the government owes them.

Of the 1,124 lines of consequence in the country 667 have accepted the government proposal for a division of the surplus above the standard (guarantee) and a guarantee of earnings should revenues fall short.

All of these accepting the proposal will be entitled to a final adjustment of accounts by the treasury and the department, where the revenues were low of the guaranteed amounts.

CITE BUSICK ON CONTEMPT

To Answer Charge for Padlocking Sacramento Dance Resort

SACRAMENTO, Aug. 31.—Superior Judge Charles O. French, District Attorney James H. French, County Clerk H. W. Hall, Deputy County Clerk John P. Macintosh, Sheriff Ellis Adams and Deputy Sheriff C. J. Schuyler were today cited to appear before the third district court of appeals on September 17, in an order signed by Judge H. H. and Burnett to show cause why they should not be held in contempt of court for their recent action in padlocking the Casino dance hall, a resort in the lower end of the city.

The order came following a complaint filed with the court by Attorney James T. Meredith, attorney for Charles T. Birch, one of the owners of the place. An affidavit signed by Birch declared that "the acts of these defendants was in contempt of an alternative writ of mandamus and restraining order" issued by the appellate court some months ago.

AMERICA SECOND IN SHIPPING TONNAGE

LONDON, Aug. 31.—The shipping register for 1920-21 just issued, the shipping tonnage of the United States apart from Great Lakes shipping, has increased since 1914 by over 500 per cent and now stands at 12,400,000 tons. The United States ranks second only to the United Kingdom, which has 18,111,000 tons.

Japan, which in 1914 took sixth place, is now third with 7,390,000 tons, closely followed by France with 2,923,000 tons.

Including sailing ships, but excluding tonnage on the Great Lakes, the United States now owns 24 per cent of the world's tonnage, as against 4.7 per cent six years ago, the register states.

The figures shown for the tonnage of the United States include a considerable amount of tonnage provisionally allocated to those countries, Germany, which in 1914 occupied after the United Kingdom, the first position with over 5,000,000 tons of shipping, now only owns 418,000 tons.

The steam tonnage owned by the principal maritime countries in June 1920, totaled 52,905,000, an increase of \$381,000 tons as compared with June 1914, but it is computed that the world's not less in shipping through the war, taking into account the suspension in normal shipping of the tonnage of the United States.

There is a reduction in sailing tonnage since pre-war days of 611,000 tons, a much smaller decrease than in any previous six year period and doubtless accounted for, says the register, by the shortage of other tonnage having given new life to the construction of sailing vessels. The United States, the only country which has increased sailing tonnage since 1914, now owns over 12 per cent of the world's sailing tonnage.

For Beautiful Hair

Take the advice of highest medical authorities

THERE have been many conflicting claims as to the proper treatment and care for the hair. There has been much confusion and ignorance. Now the confusion is ended. The way is known definitely—safely.

Everyone (men, women and children) should have healthy hair. Nature provided it in the beginning. Proper treatment will preserve it through life. The most eminent authorities have prescribed the way to prevent the loss of the hair's life and luxuriance.

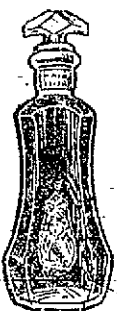

Highest authorities

The Council of the American Medical Association (the highest authority known) has recognized Resorcinol Monoacetate for the treatment of dandruff (seborrheal eczema) and baldness (alopecia areata)—the common foes of beautiful hair. Resorcinol Monoacetate is the principal ingredient of "La Creole" Hair Tonic.

Thus science approves this wonderful preparation. Abundant vigorous hair is now easily attained.

Simple directions

Two or three times a week apply "La Creole" Hair Tonic to the scalp. Moisten the hair and scalp thoroughly—massaging the scalp with a rotary motion of the finger tips. Scalp circulation is then stimulated, the hair roots supplied with needed nourishment, and dandruff quickly eliminated. You will notice an immediate improvement in the loveliness of your hair.

"La Creole" Liquid Shampoo

Mademoiselle "La Creole"
Do not be confused by the word "Creole." The wonderful hair of the Creoles is a mix of their pure French-Spanish blood as well as of the care given it. "La Creole" preparations are their favorites.

Proper shampooing

Absolute cleanliness is essential for beautiful, healthy hair. The scalp is constantly throwing off old skin and extraneous substances. If the pores and hair tubes are clogged with dirt and perspiration, a healthy condition of the hair is impossible. Regularly every ten days or two weeks shampoo the hair thoroughly with "La Creole" Liquid Shampoo.

"La Creole" Liquid Shampoo is made from an exclusive thenthol formula of purest cocobut and cochin oils. You will instantly notice the delightful, cooling effect from its use. The hair becomes soft and lustrous—dries quickly—and the scalp and pores glow with clean health and vigor.

Always apply "La Creole" Hair Tonic after shampooing. Follow these rules faithfully and notice the improvement in the loveliness of your hair.

When purchasing "La Creole" Liquid Shampoo be sure to get "La Creole" Hair Tonic also, because the formula of each is designed to aid the other.

"La Creole" Hair Dressing

is a treatment for the gradual restoration of the Natural Dark Color to hair that has grown gray, gray-streaked or faded. It must not be confused with common dyes. Refinement approves its use.

Among the 13 members of the committee were eight avowed prohibitionists. The remaining five, including Dr. Bratt, dissent from the majority report, which refers to "the splendid results of prohibition in America."

DAVIS QUARTET UNSCATHED IN TITLE MATCHES

But are Hard Pressed as Youthful Stars Emerge
R. Norris Williams Is Only Member to Drop Set

FOREST HILLS, N. Y., Aug. 31.—Pressed by the limit by several of their opponents, the stars of the Davis Cup team survived the ordeals of the second round of the thirty-ninth annual "all-comers" championship singles today. Of the famous quartet, R. Norris Williams, 11, holder of the title in 1914 and 1916, was the only one to drop a set. The others, William Tilden, 11, holder of the world's title, William M. Johnston of San Francisco, the playing-through champion, and Charles M. Johnston, all played command when compelled to exert themselves.

Williams defeated Howard Voshell, the hard-hitting left-hander of Brooklyn, by the score of 2-6, 6-2, 7-5. Tilden again carried to a close of the match. The Pennsylvania finally scored against M. Thomas Anderson, New York, 3-6, 6-2, 6-4, 6-7.

Johnston forced the drives of A. D. Hammel, former New York University champion, something to be treated with respect. He won 6-2, 6-4, 6-7, 6-4. Johnston played carefully from a deep backcourt.

Garland went sailing through Edward B. Benedict, a young Cambridge, Mass. player 2-6, 6-0, 6-0. So far as the clashes between the Davis Cup team and the world's champion, the force of the latter that carried off the honors of the day. This was due to the splendid victory of Clarence Griffin, San Francisco, who defeated the Davis cup team's home of Richmond, the Harvard athlete, 6-2, 7-5, 7-6.

Richard Roberts and Willie E. Davis, also of the Pacific Coast forces, easily moved forward. The playing of Roberts at the Davis cup team's clash, as he defeated Hoffman Nicholson, New York, 6-2, 6-0, 6-0.

Davis Cup team assistant, the attack of Roberts went up in the latter round. Davis defeated Audrey C. C. Cynog, Pennsylvania, 6-4, 6-2, 6-4.

Richard has battle. Of course the youthful Vincent Richards filled in for a battle that featured with some of the most spirited action West has seen. He was invincible, as far as Leonard Beckman, former Princeton champion, was concerned. Richards always had the measure of the expert and he won, 6-3, 6-0.

Among the other prominent winners at Forest Hills, the captain of the Davis Cup team, Watson M. Washburn, Dean Mullen, and the veteran, Frederick B. Alexander.

Nathaniel W. Niles, Boston, defeated Alfred S. Dabney, Boston, 6-1, 6-4, 6-4.

Watson M. Washburn, New York, defeated Harold A. Throckmorton, New York, 7-5, 6-3, 6-4, 6-0.

Frederick C. Jones, St. Louis, defeated Edward Oelsner, Montclair, N. J., 6-3, 6-4, 6-4.

L. E. Mahan, New York, defeated Philip Vandewater, Plainfield, N. J., 6-3, 6-2, 6-2.

G. A. L. Minton, New York, defeated George B. Emerson, Orange, N. J. (Match unfinished), 6-3, 4-6, 4-6, 7-6.

Charles M. Bull, Jr., New York, defeated Frederick C. Jones, New York (match unfinished), 6-6, 7-6, 6-2, 6-8.

Fitzgerald Crowding Sheeley for Honors

SAN FRANCISCO, Aug. 31.—Though Sheeley is still a hill climber, Fitzgerald is crowding him down the top of the batting averages. He will have to watch his step. Last week several players made splendid batting averages.

San Francisco's batting averages are: Fitzgerald, .345; Sheeley, .340; Johnson, .335; Loe, .330; and others.

PARENT ALLEGES LOVER ENTICED GIRL TO ELOPE

Accusation of Kidnaping Against Carpenter of Reedley

Believe Couple Have Fled to North to Be Wed

W. A. McElroy of Reedley has indicted the law in an effort to induce the desertion of his 11-year-old daughter, Louisa, and David Moffard, a young carpenter, who prevent their marriage. The father of the girl appears as the complaining witness of a complaint issued by Deputy District Attorney James D. Graham on a charge of kidnaping.

McElroy says the couple fled from Reedley early last Sunday morning in Moffard's automobile. He believes they were headed for San Francisco or some other city in the north.

By telegraph officers in the north have been asked to keep a sharp lookout for the car.

The complaint accuses Moffard of unlawfully and maliciously enticing Louisa McElroy away from her home. The father informed Griffith that his daughter had been kidnapped, but that he intended to vigorously prosecute Moffard.

For some time, said McElroy, Moffard has been paying attention to his youthful but womanly daughter. He asked for her hand but was refused on account of the

MONTH AUGUST EXTRAORDINARY

Loss to Fruit Crops Only Nominal; Excessive Heat; Storms

While the weather for the month of August was unfavorable enough in several respects, it had losses in the fruit crops of the valley, there were several extraordinary features in the month's record, according to the statement issued from the local weather bureau.

The first was the excessive and persistent heat which continued from August 1 to 17, inclusive, with daily maximum over 100 degrees on every day except one. This warm spell continued to a maximum of 110 degrees on August 16, that being the second time this high temperature had been recorded this summer.

Other other occasion was on June 30, and it is the highest temperature recorded in Fresno since July 15, 1911. From August 18 to 25, the deficit in temperature was marked as the excess had been during the first half of the month. On several days the temperature was from 10 to 15 degrees below the normal and this deficiency almost completely offset the excess early in the month so that the average for the month as a whole is quite close to normal.

The other noteworthy feature of the record was the series of thunderstorms and the accompanying rainfall on August 21. At Fresno the rainfall was 1.54 inches, and this amount had fallen once before in August. It was the fourth August day in a record covering 33 years on which measurable rain had fallen here.

As drying weather quickly followed the rain, there was little damage to fruit on the trees and the loss was minimal except the expense of labor and material required in re-spraying. The greatest single item of loss resulting from the thunderstorm was the damage to electric power and telegraph equipment and the interruption of service.

Army Store Last Day Sales Total of \$750

With a final effort to mark the last day, the United States quartermaster store at the City Auditorium did a business of \$750 yesterday. Practically everything, including the number and figures, was sold, except a small quantity of underwear and shoes, said Manager W. P. Kelly. Total sales since the store opened amount to approximately \$300,000.

The small quantity of goods remaining on hand will be shipped to San Francisco. Manager Kelly will remain here for a few days to close up the business of the store finally, he said last night.

Licenses Issued for 4,000 Canines

More than 4,000 dog owners in the city and county have obtained licenses for their pets since the rabies quarantine for regulation began effective two months ago. Of this total the county tax and license collector's office has issued about 3,500.

During the month just closed the taxer office issued 875 licenses, while the city reports revenue of \$278.25 for 28 female and 51 male dogs. The month, one of the best of the summer, developed new indications of rabies, said the health department.

Lowered the rain, there was little damage to fruit on the trees and the loss was minimal except the expense of labor and material required in re-spraying. The greatest single item of loss resulting from the thunderstorm was the damage to electric power and telegraph equipment and the interruption of service.
